AUDIO VISUAL SOLUTIONS FOR DIGITAL SIGNAGE APPLICATIONS

peerless-AV®

UNPARALLELED PEOPLE, PROCESSES AND PRODUCTS

Peerless-AV stands as a leader in the AV mounting industry for more than 40 years. We consistently deliver innovative solutions that focus on quality, simple installation and feature-rich functionality.

We consider a "solution" to be more than the product itself. A true solution encompasses how the product is made, how it gets to you and the service you receive. We devote care and attention to every element of our AV solutions so we can fulfill the sum total of your needs.

CONTINUOUS INNOVATION

We are always adding new products to keep pace with the constant changes in AV technology.

ADVANCED MANUFACTURING

We design, manufacture and test products in our U.S.-based facility; ensuring that all products will meet your exacting standards.

COMMITMENT TO QUALITY

We guarantee your satisfaction—designing for ease of installation, improved durability, better aesthetics—your needs guide our manufacturing process, from conception to production.

VIDEO WALL SOLUTIONS • DIGITAL MENUBOARD KITS • INTERACTIVE KIOSKS • WIRELESS • AND MORE!

Highly engaging interactive technologies like touch, gesture, dynamic media and mobile devices are changing the way we shop, communicate and interact with one another. Digital media and digital signage has officially gone from being a nice-to-have messaging system to a must-have interactive marketing platform.

Peerless-AV continues to be a pioneer and market leader in the Digital Signage arena. We consistently raise the bar through providing innovative solutions for interactive displays, out-of-home advertising, kiosks, in-store displays, POS solutions—we have creative, compelling solutions for just about any environment.

Our experience allows us to meet the challenging goals of our clients and often exceed their expectations. As the industry leader in Custom Solutions, we offer true innovation, technical expertise and state-of-the-art facilities to take projects from concept through successful production.

Whether you need a quick solution for a few digital displays or a completely custom solution for a large, multi-screen rollout, Peerless-AV is here to support and solve your unique project challenges.

# VIDEO WALL MOUNTS

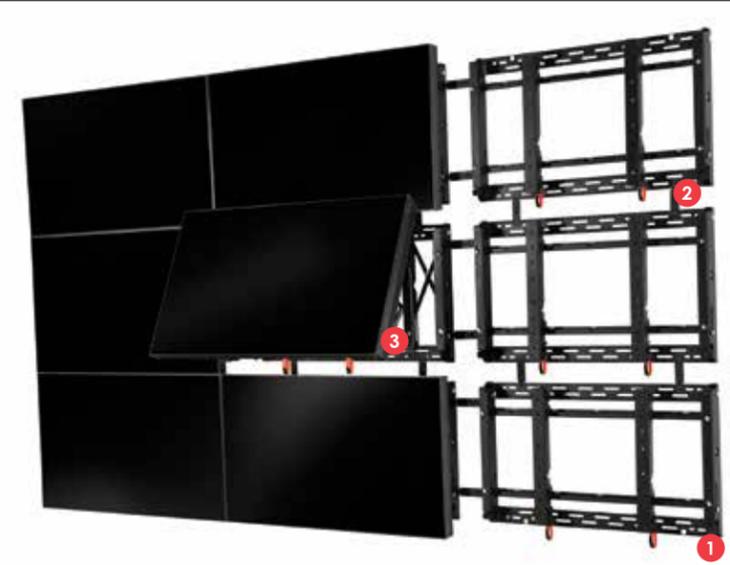

DS-VW765-POR

DS-VW646-2X2

DS-VW665

DS-VW765-LAND  
3 x 3 display configuration shown, limitless configurations possible.

**1. 8 MICRO-ADJUSTMENTS AT YOUR FINGERTIPS**  
8 micro-adjustment points between displays offer the easiest way to perfectly align multiple displays in limitless configurations

**2. ELIMINATE GUESSWORK AND ON-SITE CALCULATIONS**  
Model-specific wall plate spacers connect between the mounts to ensure perfect spacing alignment between displays, saving you time and effort

**3. QUICK ACCESS TO DISPLAY COMPONENTS**  
Pull-out and prop-open display lets you service the video wall without any hassle

# DIGITAL MENU BOARD KIT

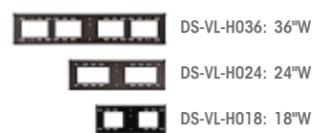

DS-VL-H048 and DS-VL-H036 and ACC-DSV329 with accessory DS-ACC-LDCM shown

- 1. NO MEASURING**  
Install multiple displays onto one mounting system with virtually no measuring required
- 2. INFINITE POSSIBILITIES**  
Create any combination of wall plates and vertical rails forming a limitless linear array of displays
- 3. INSTALLATION SECURITY**  
Prevent tampering and theft with included security hardware
- 4. VERSATILITY**  
Portrait or landscape orientation with tilt at -5, 0, 5, 10 and 15 degrees

## DIGITAL MENU BOARD KIT

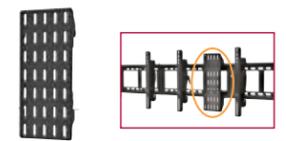

### DS-VL-H models

### ACC-DSV models

## ACCESSORY

### DS-ACC-LDCM

### DIGITAL MENU BOARD KIT - HORIZONTAL WALL PLATES

- Adjustable up to 15° of forward tilt and -5° backward tilt for optimal viewing angle
- Infinite horizontal configuration
- Displays can be mounted both landscape and portrait
- Horizontal display adjustment

### DIGITAL MENU BOARD KIT - VERTICAL DISPLAY MOUNTING RAILS

DS-VL-H060 with ACC-DSV449 shown

DS-VL-H060 with ACC-DSV240 shown

### CABLE MANAGEMENT ACCESSORY

COLOR: Black

- Neatly secures cables into one location
- Organizes cables out of viewing area of display arrangement
- Easy and fast cable management using cable ties and easy access slots

Customizable mounting kit that can hold any number of displays, landscape or portrait, in an infinite linear formation. Contact Customer Care for assistance in calculating your Linear Display configuration or visit [info.peerless-av.com/menuboard](http://info.peerless-av.com/menuboard)

# BACK-TO-BACK CEILING MOUNTS

DST965 shown

- 1. CONVENIENT STORAGE**  
Two component shelves provide storage for standard size computers
- 2. CLEAN PROFILE**  
Side panels hide cables and media players from view
- 3. UNIVERSAL**  
Accommodates mounting patterns up to 730 x 433mm

## MOD-FPMD

### BACK-TO-BACK CEILING MOUNT

- For 10"-65" back-to-back flat panel displays
- Holds 2 displays back-to-back with up to +20°/-5° tilt
- Landscape or portrait orientation
- Requires extension column and ceiling plate, sold separately

## DST965

Media storage shelves

### BACK-TO-BACK CEILING MOUNT WITH MEDIA PLAYER STORAGE

- Holds two displays back-to-back at a 20° fixed tilt
- Removable side panels for easy maintenance
- Two component shelves provide storage for standard size computers
- Cables are routed through the column for a clean appearance
- Includes Peerless-AV universal mounting brackets
- Security hardware to deter tampering and loss

\* Requires display to be removed and reset on mount.

# MULTI-DISPLAY CEILING MOUNTS

Multi-display circular configuration

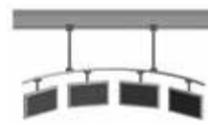

Multi-display in-line configuration

- 1. MULTI-DISPLAY MOUNT**  
Multi-display mount for 3 to 4 flat panel displays

- 2. CONFIGURATION OPTIONS**  
Three different configurations: in-line, curvilinear, and circular

Multi-display curvilinear configuration

- 3. DROP LENGTH OPTIONS**  
Choose desired ceiling drop length and drop length of displays from pipe

In-line configuration:  
MDJ700 / MDJ710 / MDJ720

Curvilinear configuration:  
MDJ701 / MDJ711 / MDJ721

Circular configuration:  
MDJ760

## MDJ models

### MULTI-DISPLAY IN-LINE, CURVILINEAR AND CIRCULAR CEILING MOUNTS

- Multi-display for 3 to 4 flat panel displays
- Multiple drop down length options from 1'-12'
- Mounts to virtually all ceiling surfaces
- Theft-resistant security fasteners secure the display to the mount to keep equipment safe
- Requires accessories - PLCM-2, ACC600, DCS, DCT, ADD, AEC or EXT, see page 31

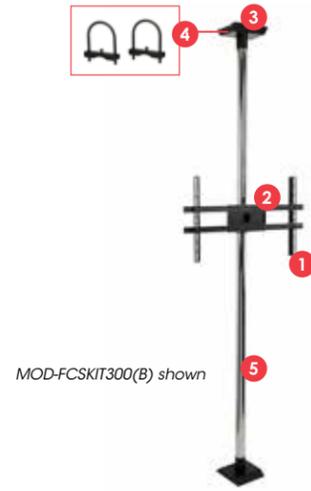

\* Requires display to be removed and reset on mount.

## THE ONLY SINGLE-SOURCE KIOSK SOLUTIONS PROVIDER

Specifying and having a large-format interactive kiosk built used to be a daunting, time-consuming task. Not anymore. Peerless-AV, the only large-format kiosk integrator, makes it turnkey, cost-efficient and easy with:

- Our **Kiosk Partner Program** that gives you access to a wide range of the industry's best technologies such as displays, media players, software, cameras, content, and more.
- **KioskBuilder™**, our exclusive self-serve online configurator, that allows you to quickly specify your technology requirements.
- An **extensive range of made-in-the-U.S.A. kiosk enclosures** to allow you customization freedom.
- A **dedicated integration area** where we assemble everything into one of our kiosk enclosures.
- **Direct shipment of kiosk(s)** to you or the installation site.

## A FULLY INTEGRATED AND READY-TO-INSTALL CUSTOM KIOSK AT YOUR FINGERTIPS

We ask. You answer.  
KioskBuilder does the rest.

Just go to [kiosks.peerless-av.com](http://kiosks.peerless-av.com), where the KioskBuilder application will guide you through a simple series of questions such as:

- Will the kiosk be indoors or outdoors?
- Portrait or landscape orientation?
- Free-standing, desktop or wall-mounted?
- What kind of display/touch technology, media player, etc., do you want?

Then, KioskBuilder provides you with options and you make your selections. It's that easy.

Choose from the best names in the business.

We have partner agreements with top-tier technology companies that allow us to get you any high-quality products you need. It also ensures product compatibility for flawless performance for years to come. We work with:

### DISPLAY MANUFACTURERS

## CUSTOM CONFIGURED AV RACKS FROM PEERLESS-AV®

Our complete family of AV Racks features a modern, streamlined design with an ease-of-use and flexibility that fits any commercial use. We offer built-to-order custom solutions via an online configurator tool that enables users to specify the precise location of each component, view a CAD drawing with all accessories installed, and examine a rotating 3D model to ensure satisfaction with the design before submitting it for a same-day quote. Models range in size from 8 to 44 RUs and are available in 10 colors with a wide variety of options.

### SELF-SERVICE CONFIGURATION

Use our online **Rack Configurator** application to build your own rack, select a pre-configured rack or customize with accessories.

With Peerless-AV, you'll receive:

- 3D model to view the rack design before you order
- Drawing of all accessories shown as mounted in your rack
- Accessory order configuration
- One part number for each configured rack
- Complete bill of materials, including part numbers, descriptions, quantities and shipping weights

## THE POWER TO BROADCAST

A Digital Signage integrator's dream, the Pico Broadcaster broadcasts HD content to an unlimited number of DTVs that have an ATSC tuner and over-the-air antenna within a 350ft (106m) radius. The Pico Broadcaster accepts content from a computer or media player with IP transport stream output capabilities then broadcasts the signal to any open 'white-space' channel local to the area. The Pico Broadcaster is not only a convenient, powerful and flexible media distribution system, but is the most cost effective media device for a Digital Signage application.

Uses over the air broadcast technology to deliver high-quality media

Quick, easy and wireless Digital Signage delivery up to 350ft (106m) radius

Delivers virtually any media format to an unlimited number of DTVs

Content management made easy with network connectivity

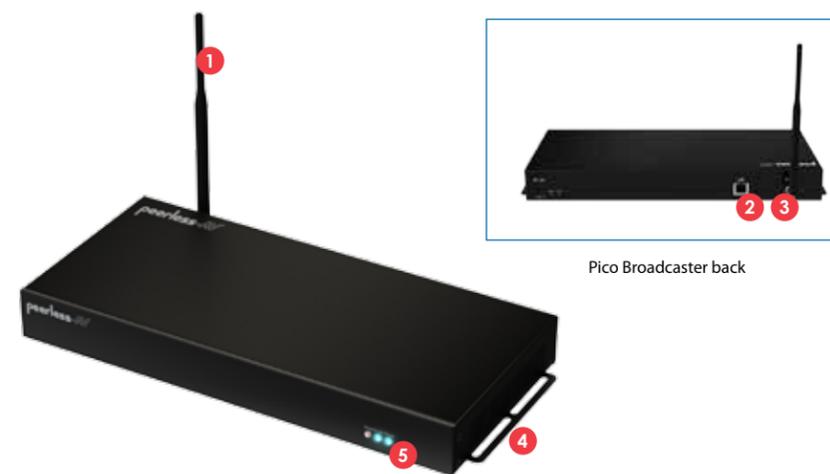

### HDS-PB100

#### PEERAIR™ PICO BROADCASTER

- Long range wireless transmission of an omni-directional broadcast signal up to a 350ft (106m) radius
- Streams HD broadcast quality content onto white space channels to an unlimited number of DTVs within effective range
- LAN port for Transport Stream input, network/internet connectivity, as well as local and remote control of content
- Includes Streaming Media Server software to transcode virtually any media format to MPEG2 broadcast format
- Adjustable power output setting to match installation requirements
- Web based graphical user interface for ease of configuration
- Configurable IP addresses for system control and setup to join any pre-existing network
- FCC compliant broadcast device which includes first year of FCC licensing subscription
- Mounting flanges for affixing unit securely to a wall or ceiling

Accessories ..... page 31

Wireless Technology	Over-the-air broadcasting on 'white-space' channel over UHF 500-700 MHz frequencies
Wireless Transmission Distance	350ft (106m) (transmission distance may be tuned down to meet project needs)
Multi-Screen Capabilities	Broadcast to unlimited number of DTVs within the transmission distance
Input Connections	1 - Ethernet 1 - USB (for servicing) 1 - DB9 (RS-232 for servicing)
Output Connections	Broadcast signal is received by antenna and ATSC tuner
Primary Applications	Digital Signage applications requiring wireless content delivery for distances up to 350ft (106m) Ideal for dynamic environments where any number of displays may need to be repositioned from time to time

Pico Broadcaster back

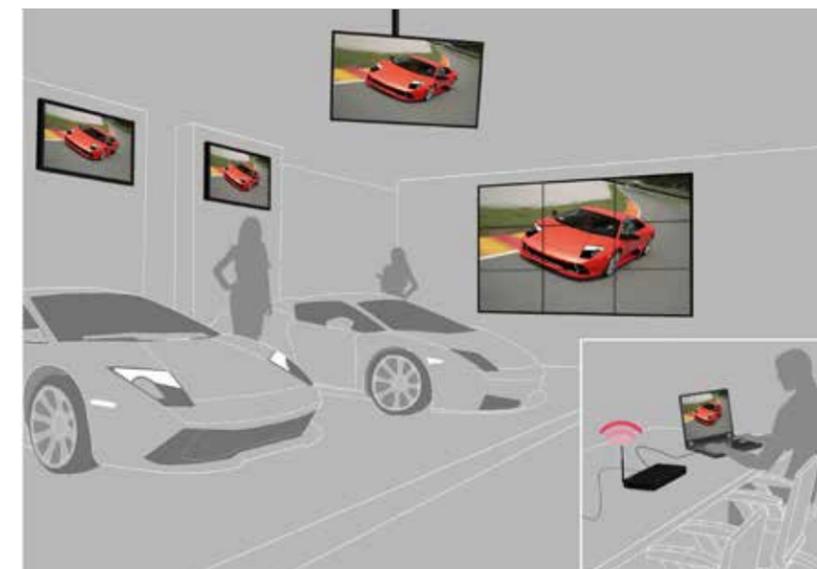

**1. SCALABLE BROADCAST TECHNOLOGY**  
Transmits HD broadcast quality signals to an unlimited number of HDTVs within a 350ft (106m) radius

**2. CONTROL OPTIONS**  
LAN port provided for access to internal settings

**3. CONNECTIVITY**  
LAN port connects device to local area network via Cat5 cabling for signal transfer

**4. MOUNTING FLANGES**  
Conveniently slotted flanges for quick and easy mounting

**5. NOTIFICATION**  
Indicator lights provide system operation status

### PEERLESS-AV® STREAMING MEDIA SERVER

Simple-to-use interface easily streams multimedia content to the Pico Broadcaster

- Drag-and-drop functionality enables easy playlist creation
- Converts virtually any file format to MPEG2 to meet broadcasting standards
- Delivers multimedia content to Pico Broadcaster

## ONE SOLUTION, ENDLESS POSSIBILITIES.

HD Flow™ Pro is simply the most versatile wireless solution for digital signage applications. Get full HD 1080p wherever it's needed with no strings attached. This highly flexible wireless solution provides endless possibilities, working with both digital and analog signals, with any AV or IT device. It easily streams high definition content through walls, floors and ceilings to flat panels or projectors up to 131ft (30m). In addition, the HD Flow Pro multicasts to up to four displays, perfect for multi-screen digital signage content delivery. This wireless workhorse is a project-saving kit for new installations and retrofits alike.

The most flexible wireless HD solution, works with both analog and digital AV/IT sources

Streams Full HD content to up to four displays at once

No more being tethered to cables - install anywhere, anytime

HDS200

HDS200-2  
Multicast: Two Receivers

HDS200-3  
Multicast: Three Receivers

HDS200-4  
Multicast: Four Receivers

### HD FLOW™ PRO WIRELESS MULTIMEDIA KIT

COLOR: Gloss black

- Full HD 1080p (60Hz) (24/30/60 fps) and passive 3D signal flow, ideal for ultra-fast signal streaming
- Long range, high-quality streaming up to 131ft (40m) with no reduction of picture quality
- Multicast up to four HD Flow™ Pro Wireless Receivers\*
- Instant real-time transmission of Full HD media
- Transmits through walls, floors and ceilings for multi-room streaming capability
- The HD Flow™ Pro (802.11n) private network resists interference and network sharing from nearby wireless routers
- Built-in IR does not require line-of-sight placement to control source devices such as DVR/set-top box, satellite receiver, Blu-ray/DVD player, media server, VCR or game console
- HDCP compliant
- Plug-and-play setup requires no software or driver installation

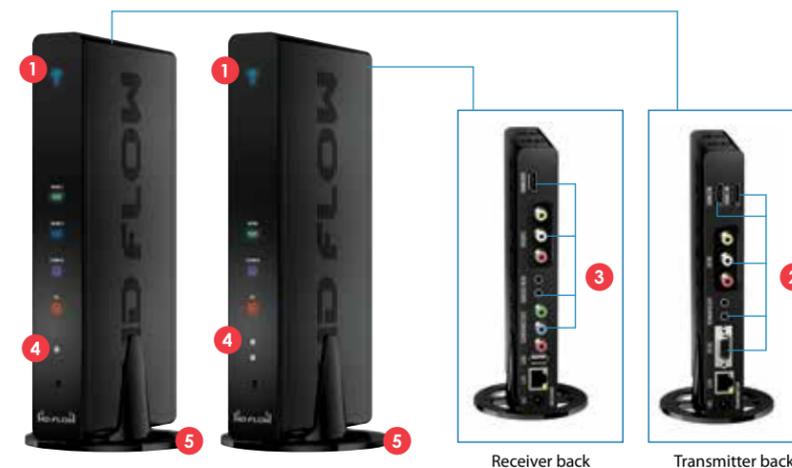

\* Requires additional receiver units

Additional accessories ..... page 31

Wireless Technology	Wi-Fi, 802.11n (dynamic frequency selection), 5.15-5.25 GHz
Wireless Transmission Distance	131ft (40m)**
Multi-Screen Capabilities	1 Transmitter, up to 4 Receivers***
Input Connections	2 - HDMI 1 - Composite 1 - 3.5mm Audio 1 - IR IN (Receiver) 1 - VGA (Component with provided adapter) 1 - LAN 1 - USB (Service port only on Receiver)
Output Connections	1 - HDMI 1 - Composite 1 - Component 1 - 3.5mm audio 1 - IR Out (Transmitter) 1 - LAN
Primary Applications	Commercial use where digital or analog devices are to be used as sources for secure wireless AV streaming through walls, floors and ceilings; ideal system for multicast applications when delivering AV content to up to four displays***.

\*\*Transmission distance depends on actual environment. Expressed distance is based on line-of-sight measurement. Obstructions constructed of steel, wood, concrete or brick may decrease transmission distance.

\*\*\*Additional Receivers (HDS200-R), programming required when adding receivers to an already existing system. Multicast systems HDS200-2,-3,-4 ship pre-programmed.

Transmitter back

- 1. ROBUST SIGNAL**  
Confirms that the 802.11n private network has been set up and is ready for Full HD 1080p and passive 3D wireless signal streaming
- 2. INPUT CONNECTIVITY**  
Plug in up to five (5) AV source devices and easily switch between them with the included remote control
- 3. OUTPUT CONNECTIVITY**  
Four (4) output port options available — ideal for virtually any output device
- 4. SOURCE CONTROL**  
Built-in IR controls source devices without need for line-of-sight device placement
- 5. SMALL FOOTPRINT**  
Small footprint makes it easy to fit the HD Flow Pro units into any application

- 1. CONVENIENCE OF MOBILITY**  
4" swivel casters enable safe and easy maneuverability over various flooring surfaces and through doorways. Two locking casters ensure complete stability wherever the cart is placed
- 2. WIRELESS FULL HD 1080P AND 3D STREAMING**  
Cable-free high-definition and passive 3D signal streaming up to 131ft (40m) through floors, walls and ceilings
- 3. REMOTE COMPONENT CONTROL**  
Source device control is made simple with a built-in IR back channel. No matter where the components are stored they can be controlled at the display location
- 4. CLEAN APPEARANCES**  
Provides 3-tap grounded outlet for wireless components and display power allowing for only one power cable to be routed to the power outlet

Includes everything needed to quickly and easily stream wireless content to the display without the need to run signal cables

**WL-SR560M-200**

**PEERAIR™ WIRELESS CART FOR 47"-65" DISPLAYS**

- Includes everything needed to mount and stream wireless Full HD 1080p and passive 3D content to the mounted display through walls, floors or ceilings
- Vertical adjustment feature to achieve ideal viewing height
- Internal cable management neatly hides all cords and cables for a clean, clutter-free look
- Includes IR Extender for enhanced remote control of source components
- Adjustable metal shelf for remote control placement
- Includes two 2.5ft (0.75m) HDMI cables for clean, fast and easy connectivity
- Built-in 3-tap grounded outlet for wireless components and display power allowing for only one power cable to be routed to the power outlet
- 4" swivel casters with two locking casters ensure stability, safety and easy maneuverability
- Provides excess display power cable, and wireless component cable storage for a clean look
- Quick and easy assembly and plug-and-play wireless set-up
