

CHANNEL VISION™

A4603 4-Input 6-Zone Matrix Controller

Channel Vision's A4603 is a 4-Input 6-Zone Matrix A/V Controller with pre-amp outputs for each of the 6 zones, making it easy to integrate with a high power, multichannel amplifier such as Channel Vision's A1260. Any of the 4-source inputs can be selected and routed to any of the 6-outputs (or zones) independent of the other zones. The A4603 is also available with a rack mount face plate as model A4603R.

A4603/A4603R

Features:

- Pre-amp outputs are ideal for the A1260 multichannel amplifier
- Distributes 4 A/V sources to 6 different zones
- 4 composite video inputs
- Provides IR and RS-232 control options for touchscreen integration and status feedback
- Link IR between multiple units
- Cost-effective and easy-to-install
