

DELUXE SERIES

Fixed Frame Projection Screen

MODEL DF

What is the Deluxe Series?

The Deluxe Series is a collection of premium fixed frame projection screens that offer the widest range of customization. They are an ideal choice for home theaters, venues, and all types of specialized applications that require optically-coated or acoustically transparent projection screens.

Experience Deluxe

The Deluxe is a series of fixed frame projection screens, each is an elegant centerpiece that is perfect for your home theater or venue. The aluminum 4-inch frame is the widest velvet-wrapped frame that Severtson Screens offers and is beveled for a stylish appearance.

Choose one of the many optical coatings and acoustic materials that will take your viewing experience to the next level of performance. The Deluxe is the highest representation of the quality Severtson is known for. It offers simple assembly and Severtson Screen's signature USA-made projection surfaces.

Luxury, Redefined

The Deluxe Series is a sleek addition to any home theater or venue. Its appearance does not distract from the projected content, but instead quietly enhances the viewing experience with its perfectly tensioned viewing surface and precision-aligned black velvet frame.

The Deluxe Series fixed frame can be paired with any of the standard or signature high-end materials and coatings that Severtson is famous for. Each Deluxe screen is custom-made to meet individualized needs.

Features

- Deluxe, velvet-wrapped frame.
- Coated or acoustic materials.
- Custom sizes are available.

Material Choices

The Deluxe Series features your choice of one of Severtson's signature USA-made projection surfaces or optical coatings listed below. All optical coatings also available in micro-perf.

Cinema White (1.3 gain)

Cinema Grey (1.0 gain)

Stellar White Digital FX (1.0-2.2 gain)

High Contrast Grey (0.99 gain)

Grey Vision (1.3 gain)

SAT-4K (1.18 gain)

TAT-4K (0.93 gain)

Bright White Acoustically-Transparent (1.14 gain)

SēVision 3D GX (2.2-2.4 gain): Severtson's advanced, water-based optical coating recommended for passive and active 3D projection.
