EXOFIELD
THEATER

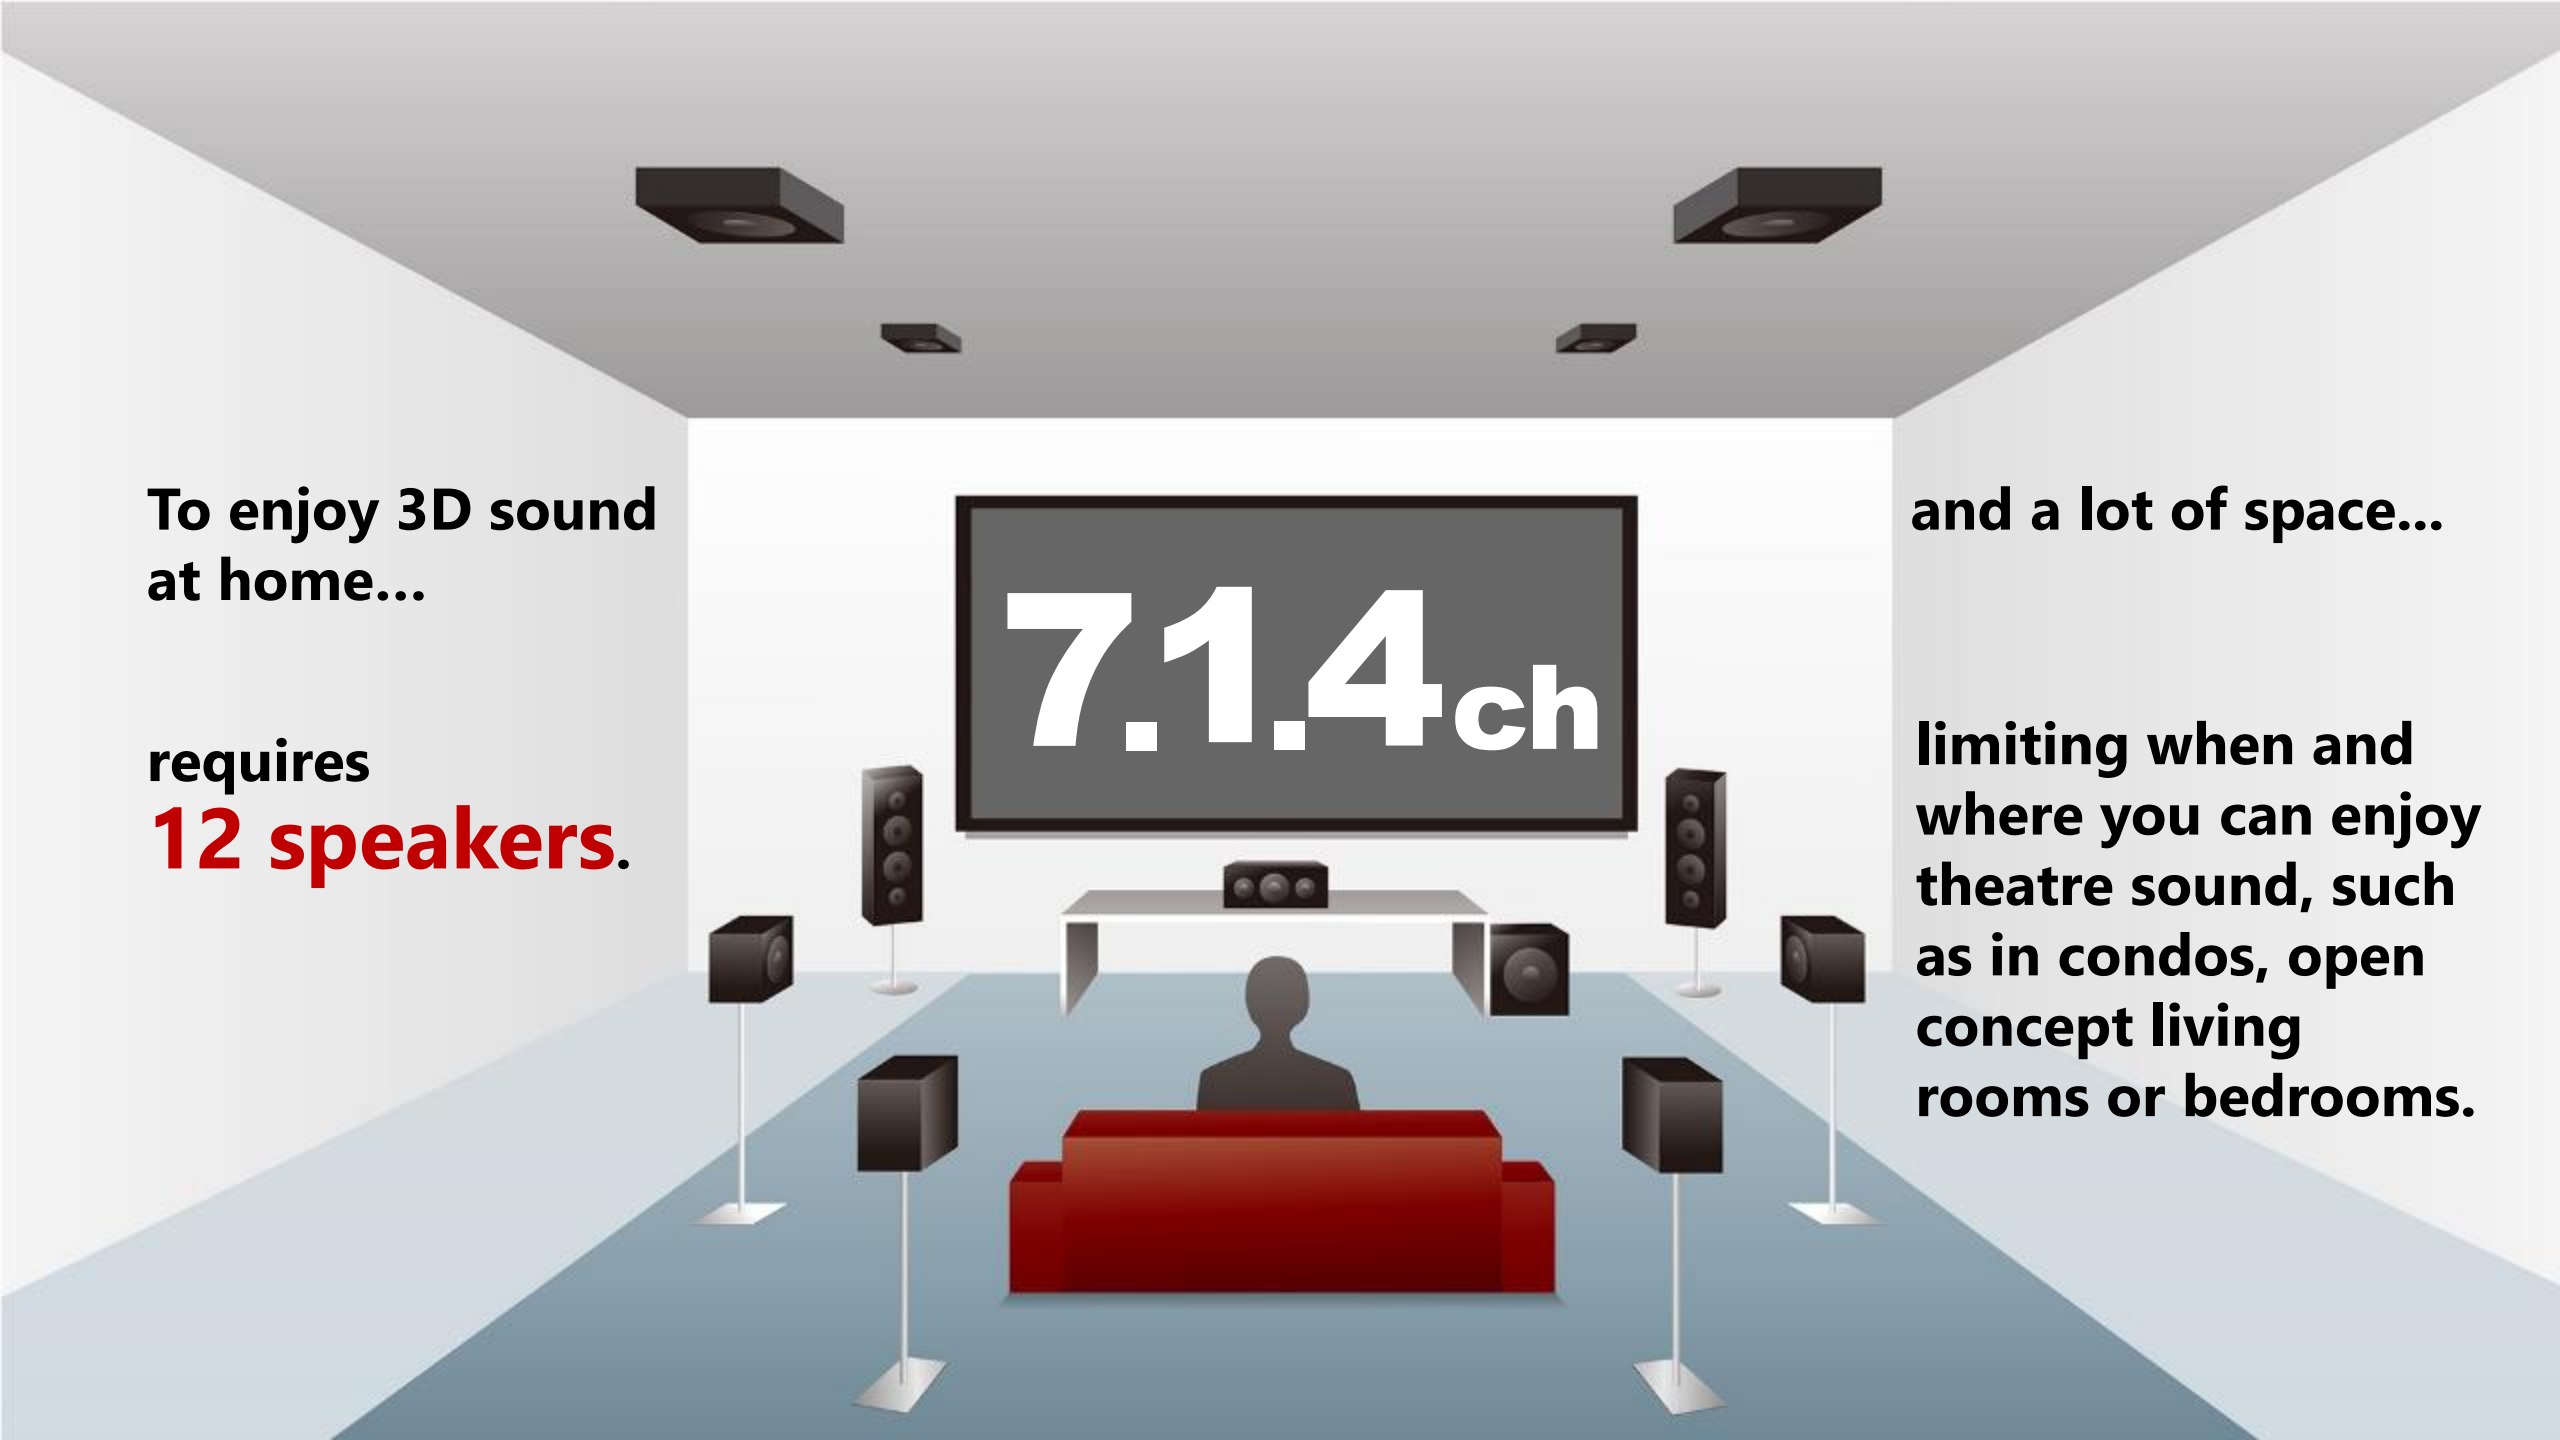
CONCEPT



To enjoy 3D sound at home…

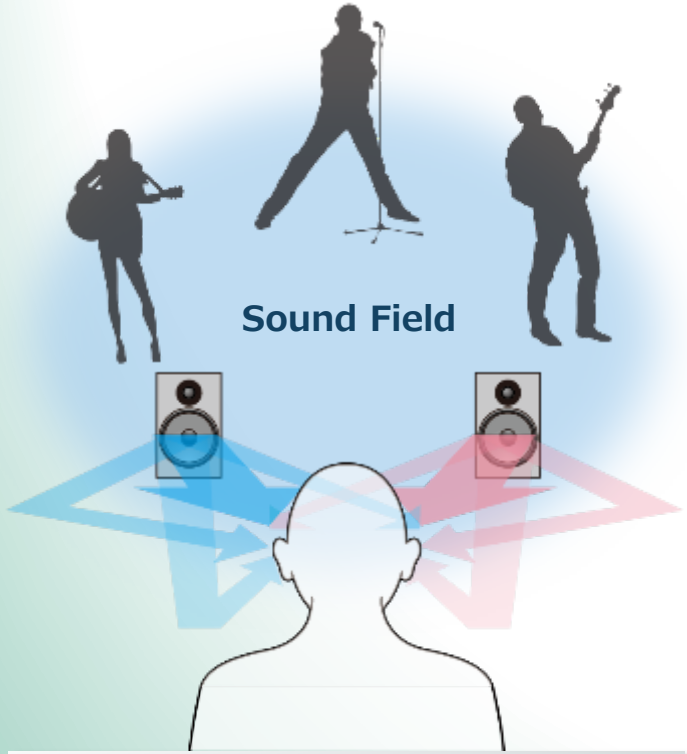
requires
12 speakers.

and a lot of space…

limiting when and where you can enjoy theatre sound, such as in condos, open concept living rooms or bedrooms.

What's EXOFIELD Technology?

Innovative Out-of-head Localization Sound Field Processing

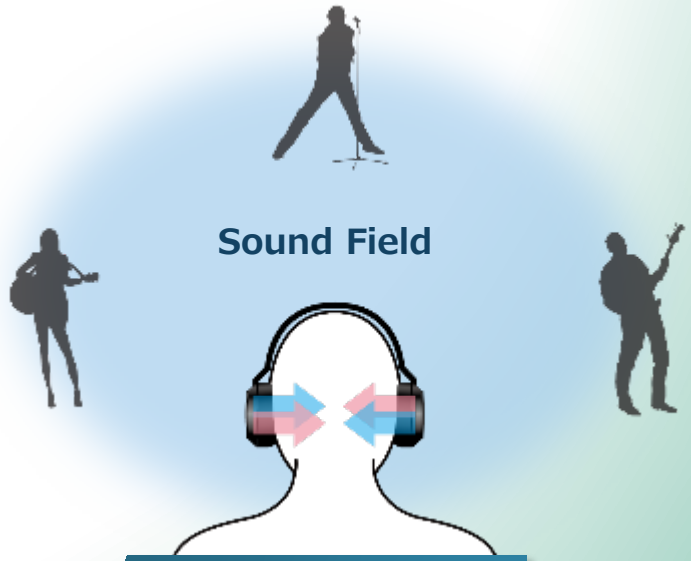


Listening through speakers

In-head Localization

Listening through conventional headphones

Out-of-head Localization for Each User



EXOFIELD

Now, there is a growing number of multi-channel content available.
