

TENSION DELUXE

Motorized Electric Projection Screen

MODEL GT

What is the Tension Deluxe Series?

The Tension Deluxe Series is a collection of tensioned, motorized electric projection screens. They are an ideal choice for home theaters or multi-purpose settings requiring high-gain or specialized projection materials.

Experience Tension Deluxe

The Tension Deluxe makes its mark above and beyond the competition by offering Severtson's signature projection materials and optical coatings in a motorized, electric screen. Now you can choose the best of Severtson's projection surfaces in a stylish retractable screen.

Maintain perfect screen tension with Severtson's Rapid KTS: Knob Tensioning System that enables high-performance vinyl projection surfaces to be built-in without sacrificing image stability. Rapid KTS makes it simple to micro-tune the screen tension - no tools required!

Perfection in Design

The Tension Deluxe is a fresh take on traditional electric projection screens - it was invented specifically with home theater enthusiasts in mind. The motor is designed to operate in a low-decibel noise range for non-intrusive operation and its black, powder-coated aluminum case blends in perfectly with the décor of a dedicated home theater.

The Tension Deluxe delivers an experience that is truly focused on the viewer. Its sleek appearance and brilliant design provides peak visual performance that will thrill the audience.

Features

- Sleek, black all-aluminum case.
- Tab-tensioned viewing surface.
- Multiple control methods.
- Wall or ceiling mounted.

Material Choices

The Tension Deluxe Series features your choice of one of Severtson's signature USA-made projection surfaces or optical coatings listed below. All optical coatings also available in micro-perf.

Cinema White (1.3 gain)

Cinema Grey (1.0 gain)

High Contrast Grey (0.99 gain)

Grey Vision (1.3 gain)

Bright White Acoustically-Transparent (1.14 gain)

Rear Projection (1.0 gain)

SēVision 3D GX (2.2-2.4 gain): Severtson's advanced, water-based optical coating recommended for passive and active 3D projection.

Who We Are
