# EXCEPTIONAL RELIABILITY

### From the Equipment Mounting Experts

Middle Atlantic has been an expert supplier of equipment racks and mounting systems for decades. That expertise is built in to every ViewPoint<sup>™</sup> system to support Mission Critical installation reliability:

- Console bays are rugged, fully welded steel construction
- Engineered for effective equipment cooling
- Built-in cable management functions
- Mission Critical qualifications include:
  - Seismic Certified to IBC, UBC, CBC, and ASCE Codes and Standards
  - UL Listed in the US and Canada for strength and stability
  - ANSI/BIMFA Compliant for strength and stability
  - GREENGUARD Children and Schools™ Certified for indoor environmental air quality (Stricter certification criteria than standard GREENGUARD rating - helps qualify for LEED credits)

Modular design allows economical additions and almost limitless configuration choices.

**SERIOUS RELIABILITY** designed for cooling, power, and cabling

System was designed with operator comfort and effectiveness in mind. Near field monitor mounts available with a wide range of positioning to allow optimum placement.

Middle Atlantic Products manufactures engineered mounting solutions for integrated electronic systems. All of our products are designed to support and protect these systems, maximizing their reliability, function, and life. We consider all aspects of the installation in our designs, including physical strength, built-in cable management, cooling and power distribution. This integrated approach helps maximize installed system reliability for our customers.

Our Console, Rack and Enclosure systems are engineered and manufactured in the USA, and most items ship from stock at our three warehouse locations. We stand behind our products and look forward to adding you to our list of loyal customers.
