

SUONO

by *Angstrom*
LOUDSPEAKERS

600 SD

Spatial Diffuser

As a matched pair, the a single pair of 600 SD works as left and right speakers - and as a stereophonic center channel as well.

The 600 SD is 2 speakers in one, arranged in a mirror-imaged pair. The top half contains a half of a center speaker with a 4.5" woofer 1" soft dome tweeter. Bottom half contains left or right channel with two 4.5"woofers and 1" front and 1" side firing spiral tweeter.

"...the Suonos were miracle-workers."

– Mark Fleischmann
