

BEALE STREET AUDIO

Get Reale. Get Beale.™

BS650 IN CEILING 6.5" 2-WAY

Our Contractor Series BS650 is **B**asically the **S**ame as most other entry level speakers on the market today. Although it has popular features such as a pivoting tweeter and bezelless magnetic grille, there is no Sonic Vortex, and nothing fancy...except that we're actually willing to admit it. It works, it sounds good for what it is and it's priced to match.

The BS650...when the budget or need for the better stuff isn't there.

Just keeping it Reale.
